

# **2<sup>nd</sup> Conference on Global Insurance Supervision**

## *Trends and Developments*

September 5 – 6, 2013  
Goethe University  
Campus Riedberg  
Frankfurt am Main  
Germany

The International Center for Insurance Regulation (ICIR) and the European Insurance and Occupational Pensions Authority (EIOPA) are glad to invite you to this year's Conference on Global Insurance Supervision, which will take place for the second time in the "regulatory capital", Frankfurt / Main. We aim to provide a unique platform for the exchange of ideas and for discussions between supervisors, leading professionals and academics on strategic regulatory issues in the insurance sector.

Maintaining the global scope of the conference, we will focus on supervisory convergence and the search for global standards. Several aspects, such as potential for supervisory convergence on solo and group level across jurisdictions, regions and sectors, will be addressed with regard to insurance and banking. Furthermore, presentations and discussions on the issue of a self-assessment of risks and solvency in insurance companies will provide room for further opinions and ideas.

We believe that this year's conference will build on the success of last year and will again encourage the exchange of ideas and further cooperation between supervisors, insurance industry and academia on an international level. Several breaks and a get-together-dinner will provide an excellent opportunity to network in a more informal atmosphere.

**Thursday, September 5**
